

Tool: I will sit next to...

You go on a trip and have to sit next to someone on the train for a long time. Who would you most like to sit next to and why?

You have to make posters. You write 1 word on one side and the explanation, possibly with a photo on the other side. You put the posters on the floor in a circle and ask everyone to take a seat next to a poster of their choice.

Then you discuss in the group what your association was with the word and whether it was correct.
